

Biophysics - Practical curriculum
Autumn semester, 2023/24

Week	Practical - MED	Practical - DENT
1	Introduction to Biophysics - Practical.	
2	Introduction to Biophysics - Practical.	
3	Measurement of Nuclear Radiation and Determination of Attenuation Coefficient.	Measurement of Nuclear Radiation and Determination of Attenuation Coefficient.
4	Measurement of Nuclear Radiation and Determination of Attenuation Coefficient.	Measurement of Nuclear Radiation and Determination of Attenuation Coefficient.
5	Light Microscopy and Fluorescence Microscopy.	Light Microscopy and Fluorescence Microscopy.
6	Light Microscopy and Fluorescence Microscopy.	Light Microscopy and Fluorescence Microscopy.
7	Optical measurements.	Optical measurements.
8	Optical measurements.	Optical measurements.
9	Computer Tomography Modelling and Blood Pressure Measurement.	Computer Tomography Modelling and Blood Pressure Measurement.
10	Computer Tomography Modelling and Blood Pressure Measurement.	Computer Tomography Modelling and Blood Pressure Measurement.
11	Principles of ultrasound imaging.	
12	Principles of ultrasound imaging.	
13	Spare lab	Spare lab
14	Lab exam	Lab exam
