

Appendix 2 to the call for applications for the “BSI Supplementary Scholarship for Doctoral Students”

Minimum information required in the end-of-semester report

The report should primarily detail the completion of the tasks undertaken in the application. If, during the semester, the applicant also completed tasks listed under category “B” that were not included in the original application, these may be described under the heading “extra activities.” The same applies to teaching activities not listed in the call for applications (category “A”).

A1. Performance of educational duties in accordance with Annex 1 of the call for proposals.

- Full practical course during the semester:
Course title, study program, group number, number of occasions (including the introductory practical) – exchanges of teaching sessions do not need to be mentioned.
- Single occasion (e.g. substitution, make-up practical, etc.):
Course title, study program, group number, date, title of the practical.
- Test and exam supervision; test discussion:
Date, time.
- Marking:
Date, course title, part of the test (e.g. minimum requirements, test questions, full test), number of tests.
- Extra activities:
Course title, type of class (seminar, lecture, etc.), group number, date, title of the topic.

B1. Tutoring of undergraduate and master’s students (e.g. laboratory work, thesis supervision) at least six times per semester (2×60 minutes per occasion).

- Regular tutoring:
Student’s name, date, frequency, description of the work and results (if any) in 4–5 sentences.
- If only a few occasions:
Student’s name, dates, description of the work and results (if any) in 4–5 sentences.

B2. Assisting the supervisor at the Sántha Kálmán camps for secondary school students.

Date, number of hours, short description of the completed task.

B3. Giving presentations at secondary schools to promote the faculty’s study programs (at least five occasions, e.g. DExpo).

Date, location, title of the presentation.

B4. Active participation in events organized by the Department of Biophysics and Cell Biology, including the Researchers’ Night at the University of Debrecen and other events promoting education and research coordinated by the Department.

This includes planning events and assisting in their implementation (at least four hours per semester, certified by the DBCB).

Date, location, title of the event, short description of the completed task.

B5. Recruitment of SRS (TDK) students and introduction to basic research skills (at least 10 hours of activity)

- Regular activity:
Student's name, date, frequency, description of the work and results (if any) in 4–5 sentences.
- If only a few occasions:
Student's name, dates and duration, description of the work and results (if any) in 4–5 sentences.
